Porner - We want to ask if there is a Bot . Perez you do not feel you have committed a crime. You have not read the statement. It is clear that you knew something. You knew about the murder before it happened. You knew where it was going to happen. You knew the planning of the crime was continuing. You knew those things because you were never told to do them. You were taught them by the police and the caretakers. You knew where those boys were going to be going on the 15th and 16th of January, and you did not tell the police. You made an incomplete statement on the first day and lied to the police on the 2nd day, instead of telling them who was responsible and who you were told by. You knew them all on the 17th, the two boys you helped on the 17th. On the 26th, when you saw the detective, you were told to do more by them. You told them the same story you told on the 2nd day. You knew more but you told them nothing. You told them you had seen the boys you helped on the 17th. You saw one of the boys then and you were trying to get evidence. You know how things are. But I must ask you a question. What were you afraid that the police would find out? You may have been afraid that your boyfriend and the other boys would get in trouble. You may have been afraid of a four year sentence. You may have been afraid of your parents not letting you be with your boyfriend anymore. What were you afraid of? What was the most important thing? And what did you choose? You chose the boys and the detective. Isn't it all about choice? Thank you very much for your time. You may have been contacted by the police. Please contact my office if you have any further questions. Terri B "If this passes, it will be like repealing Obamacare," said Rep. Darrell Issa, R-Vista. | AP Photo Congress Reacts To Cruz-Trump Deal To Stop Trump From Sorting Supreme Court WASHINGTON — The deal between Ted Cruz and Donald Trump to block a third-party bid for the Republican nomination would effectively end the 2016 campaign — with a dose of victory for Cruz and a jolt of sorrow for Trump. The agreement — which would nix the anti-Trump effort to recruit another candidate — would come four days before the Indiana primary, guaranteeing victory for Cruz,

changes in the circulatory system in a model of
polytrauma]. The experiment with 126 mongrel
dogs demonstrated that the most distinct
hemodynamic shifts of the circulatory system
occur at the early posttraumatic period when

hypoxia leads to the increase of the blood flow through the damaged tissues and their energy-consuming dysfunction. The share of these shifts in the total posttraumatic damage depends on the severity of the trauma. The posttraumatic hypoxia plays an important role in the transition of the systemic circulatory shifts into the irreversible circulatory failure which occurs on the fifth-sixth day after the trauma.

Payson PD: Stolen car recovered in Pine Pine River Estates Drive was closed for several hours today after the police recovered a stolen vehicle. Payson Police Lt. Sean Dierdorff said the vehicle was discovered today when an officer on patrol noticed the car parked in the Pine River Estates subdivision and had a "For Sale" sticker on it. The officer thought it belonged to the resident of the community. Police had the car towed to the police department where officers found it did not have a tag. According to police, the owner of the car, a man who was not wearing a seat belt, had been involved in a wreck and had crashed into a tree. Officers said the owner of the vehicle was not wearing a seat belt but was able to show officers his insurance information. Police said the owner of the vehicle had a valid driver's license and registered the vehicle with the county, but the registration information listed the driver

as living at a different address. The car was taken to a bank in St. George where the owner made arrangements to have it picked up by the bank.
