Microsoft Windows XP Professional SP2 (32-bit and 64-bit) DVD Feb 27, 2008. Why Liz Tracy's 'Feast' Is A Dream Come True The third book in the Saga of the Red Brotherhood series continues the adventures of Liz Tracy and Valeria, but also brings a side story of it's own, featuring Ed St. Germain, a guy who may not be who he says he is. This book can be read as a stand-alone, but it is a prequel to Lords of the Sunset. The two books are connected, but you can begin the story as it was meant to be told, without prior knowledge of Lords of the Sunset. You know the kind of story I am talking about. The plot lines get all mixed up, and you don't know how things will connect, as the events proceed. In Feast, this is done on purpose, for the best possible effect. At the beginning of the story, the Red Brotherhood and the Goblins are helping the Red Army guard the mystery bandits of the Yaakon. They have a hostage situation, and they need the information provided by one particular captive, Ed St. Germain. The leader of the Red Brotherhood, Graniv, offers to help Ed free his mother's spirit from a member of the Red Brotherhood, but only on one condition. That condition is that Ed must take the blame for something, and Graniv will eventually free his mother's spirit. Ed agrees, because Graniv is a friend, 6d1f23a050
