Crossover is an interesting addition to the already solid iPhone/iPad/iPod touch photo-editing app gallery. While it doesn't add much to the genre, it's solid and generally enjoyable. But one thing I didn't realize until I was all set up: You can't edit or save any photos from the app itself. After installing, and running all the way through the app, I was missing the one vital button in the upper right hand corner. The one that gives you access to the media library. So I had to
