January 24, 2020 - Hey guys. So we decided to use PowerMILL for a number of reasons. Now we have a machine for... a Delcam Powermill Mach3 post processor. PowerMILL provides multi-axis machining, making it incredibly fast when machining complex parts such as gears and shafts. In addition, with PowerMILL we can now use the manufacturing support features and simulation tools for prototyping as well as for production. That's why we bought PowerMILL. And here she is. This is a new PowerMill designed for machining shafts and gears.
